COMFORT WITHOUT WATER AND SEWAGE

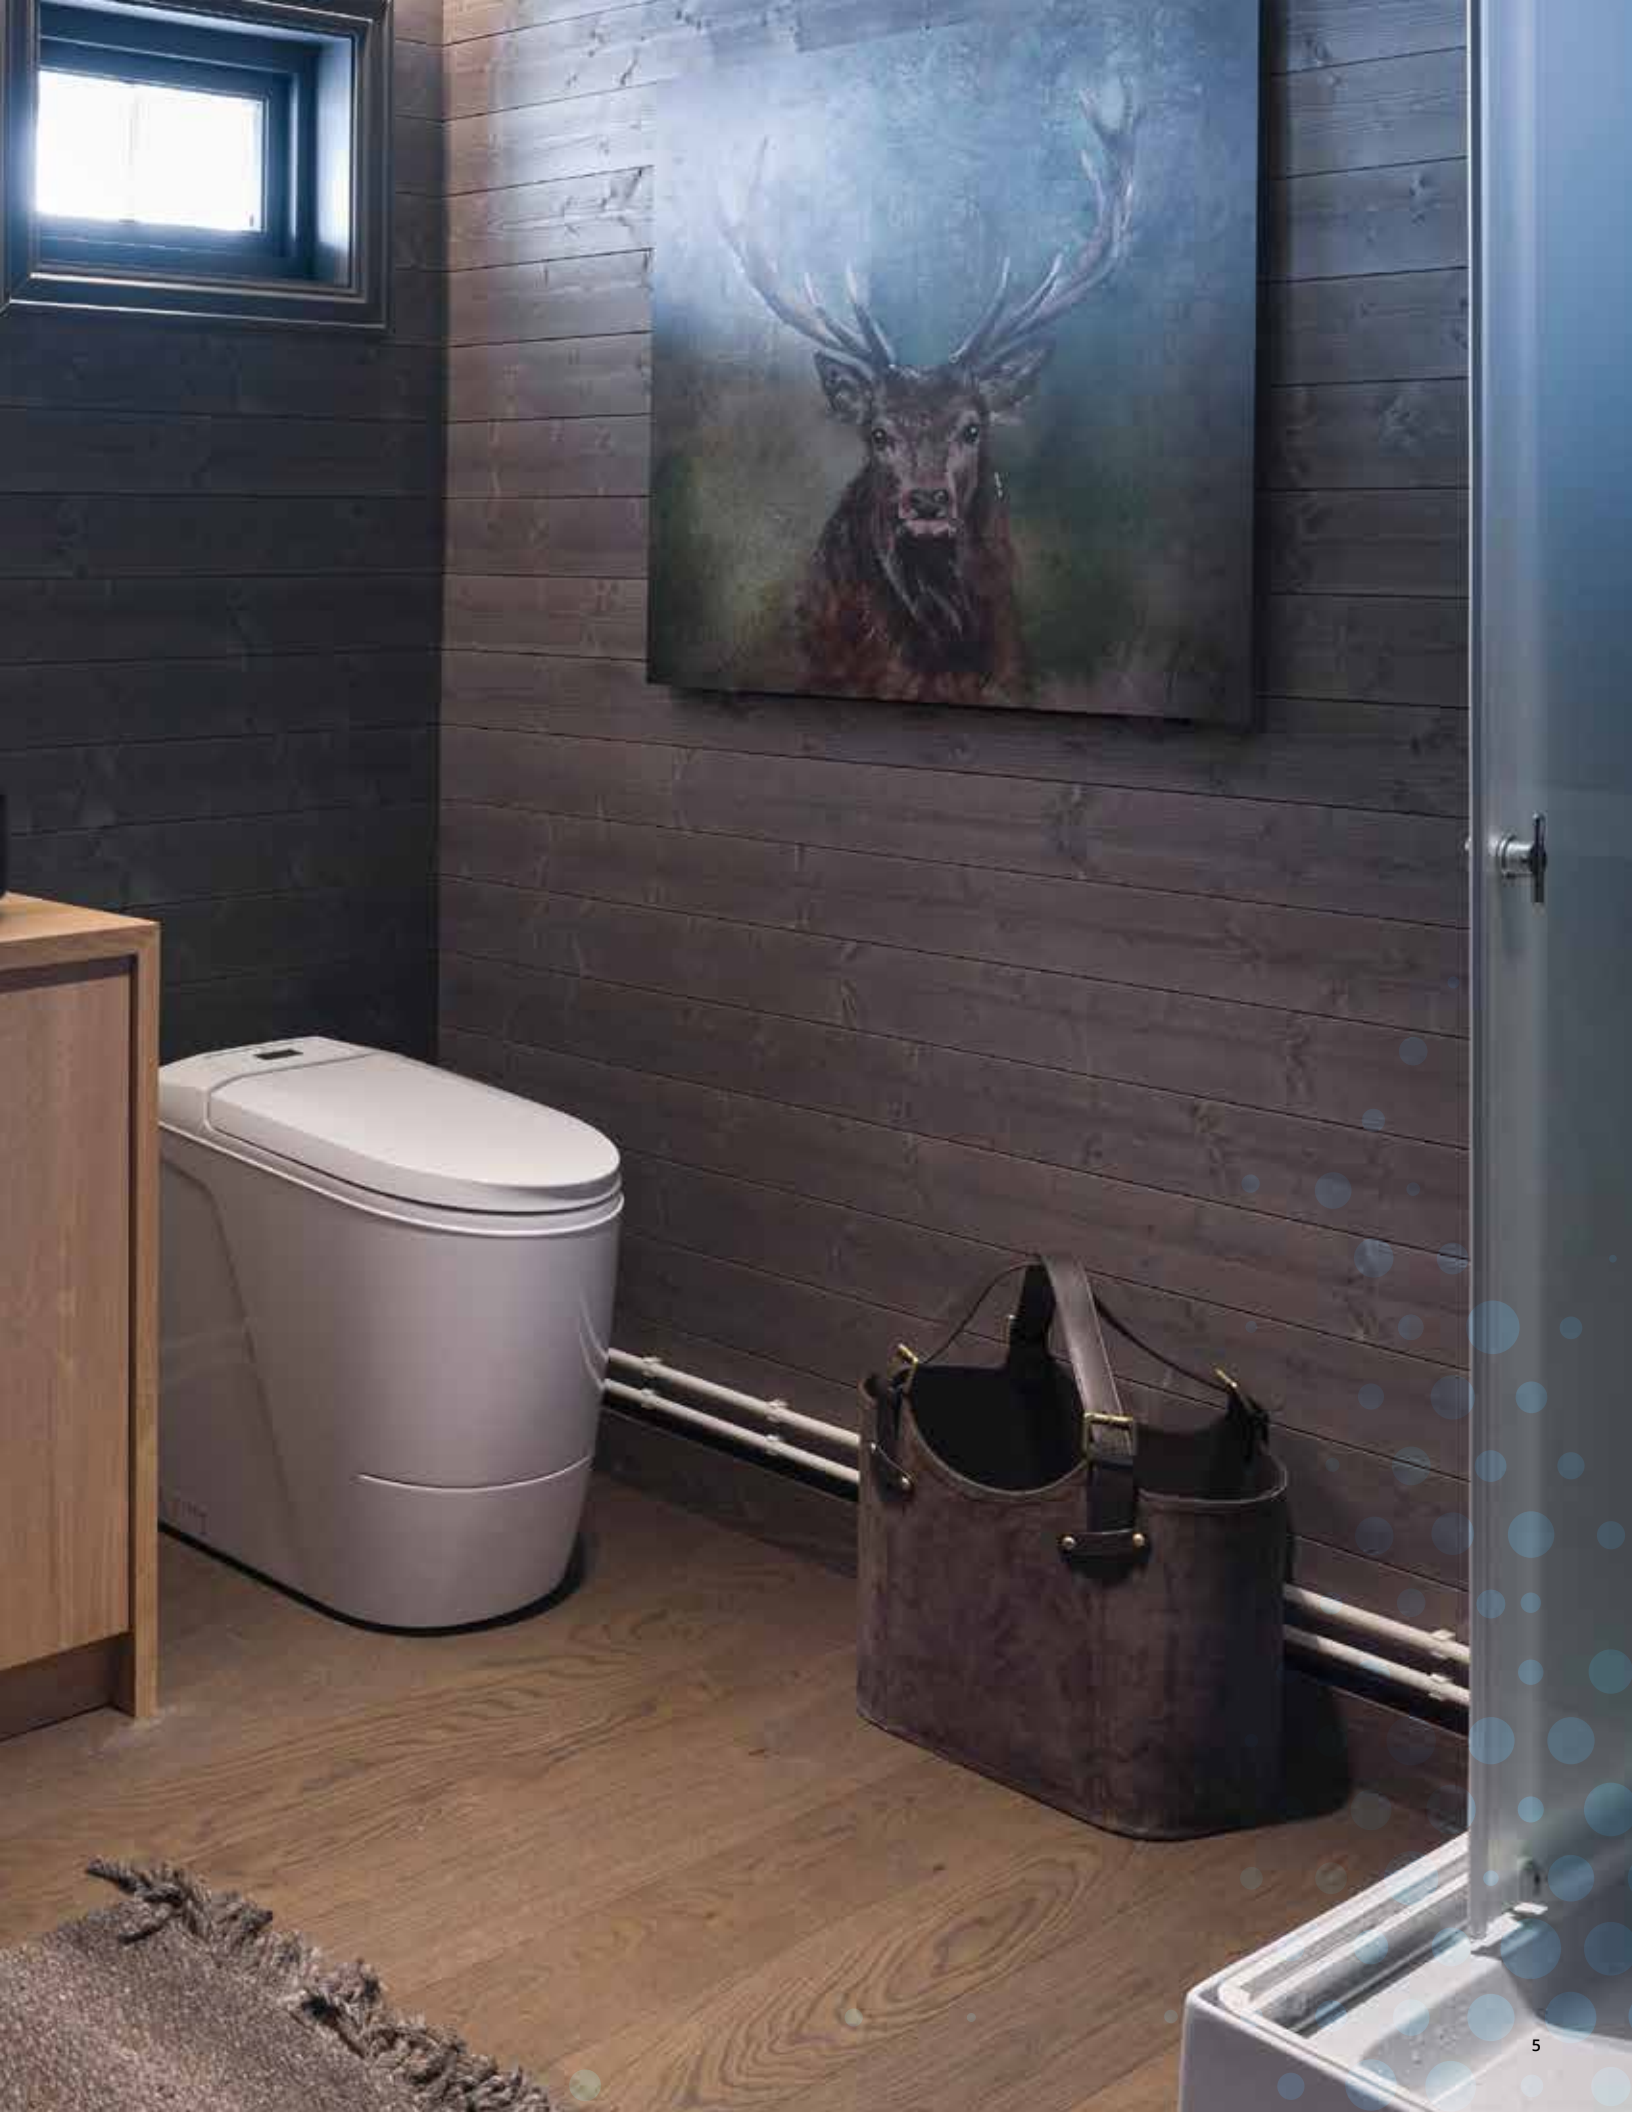

An incineration toilet is a water free toilet where bio waste products are burned at high temperatures to a minimum amount of ash. The waste is safely incinerated in a closed incineration chamber, and the pollution-free gases from the incineration process are discharged through a separate exhaust pipe.

Incinerating toilets are a total waste solution, which means they get rid of all waste. There are no additional processes or messy emptying routines, such as other toilet systems require. The solution is odorless and hygienic.

The bacteria-free ash is completely free of all pathogens and can be discarded with the household garbage. Incin-

eration toilets are a popular toilet alternative since they don't require water or expensive sewage connection. With an incineration toilet it's possible to achieve almost the same toilet comfort as flush toilets, without the considerable costs associated with sewage systems.

Cinderella Incineration Toilets are the market leader in Europe and have been produced since 1997. All our toilets are manufactured in Norway to the highest quality and reliability standards. Our products are certified and approved according to current regulatory demands in each country we operate, giving confidence and peace of mind to all of our customers.

SOLUTIONS FOR COTTAGES AND HOLIDAY HOMES

INCINERATION TOILET WORKS

WHICH MODEL SUITS ME BEST?

Your choice depends on your needs, comfort preferences, and priorities.

- If energy efficiency and minimal cold drafts are important factors, Comfort or Premium is the best choice.
- If modern design and upgraded functionality are important to you, Premium is unbeatable.
- For unheated cottages or outbuildings, Classic is the perfect toilet.
- If you are looking for a solution that does not require a connection to the electrical grid, Freedom is the right choice.

No matter which model you choose, you get the same high-quality incineration technology that defines Cinderella.

WHAT IS THE DIFFERENCE BETWEEN THE MODELS?

ELECTRICITY

Cinderella Premium stands out with its elegant, modern design that truly gives a premium feel. In addition to its sleek exterior, it has several upgraded features for increased comfort and user-friendliness. The teflon-coated toilet bowl ensures that the bowl liner slides quickly and efficiently into the incineration chamber. In addition to the soft-close lid for smooth and quiet closing, it features an advanced digital menu with smart functions.

Cinderella Comfort like Cinderella Premium, has an enclosed ventilation system that draws air from outside through a separate inlet air pipe. This means the toilet does not use air from the room where it is installed, which improves air quality, minimizes cold drafts, and makes it a very energy-efficient solution. Cinderella Comfort has a LCD display that provides status updates regarding operation.

Cinderella Classic draws the air for incineration from the room where it is placed. This means you need a fully open vent that allows fresh air in to ensure sufficient airflow. This makes the model especially suitable for summer cottages and uninsulated spaces. Classic has a simple control panel with indicator lights and sound alerts.

PROPANE

Cinderella Freedom is a propane-powered incineration toilet, designed for locations with limited or no access to the electrical grid. Enjoy high comfort and efficient incineration even without electricity. Freedom also features a LCD display for operational information and status updates.

Need help deciding? Our dealers are ready to help. You can locate your nearest dealer on our website.

CINDERELLA PREMIUM

ENERGY SOURCE – ELECTRICITY

Cinderella Premium is our latest model based on the same high quality that characterizes all Cinderella toilets. Premium has an enclosed air ventilation system and upgraded electronics with a number of functions, such as an automatic lock on the front cover for extra child protection, soft close lid, and a user-controlled maintenance program.

- Innovative and modern design
- Teflon-coated toilet bowl
- Modern information display
- Toilet lid with softclose

TO INSTALL PREMIUM, YOU ALSO NEED AN INSTALLATION KIT. SEE PAGE 21.

PREMIUM IS NOT AVAILABLE IN ALL MARKETS, FIND MORE INFORMATION ON OUR WEBSITE.

TECHNICAL SPECIFICATIONS:

- Seated height: 540 mm
- Height: 600 mm
- Width: 390 mm
- Depth: 590 mm
- Weight: 34 kg
- Capacity: 4 visits per hour
- Ventilation duct / pipes: 110 mm external dimensions
- Incineration power: 2000 W
- Energy consumption per incineration: 1-2 kWh
- Power requirement: 220 - 240 V, 10A
- Max weight tolerance: 200 kg

OTHER FEATURES PREMIUM:

- User-friendly and child-proof
- Menu controlled lock on front hatch
- Modern Scandinavian design – Made in Norway
- Digital display with menu and operating messages
- Closed ventilation system
- Well suited for year-round cabins
- CE-marked, certified and approved
- Complete toilet solution, burns all waste to ash
- Safe to operate
- 3-year warranty (**Some restrictions may apply, read more on page 20*)

CINDERELLA COMFORT

ENERGY SOURCE – ELECTRICITY

Cinderella Comfort has an enclosed air ventilation system ensuring efficient air circulation for optimal incineration and reduced energy consumption. Cinderella Comfort is CE-marked and approved by NEMKO and one of our most popular models.

- Enclosed ventilation system
- Control panel with LCD-display
- Efficient incineration
- Made in Norway

- Easy installation
- Well suited for seasonal cabins
- 3-year warranty (**Some restrictions may apply, read more on page 20*)

CINDERELLA FREEDOM

ENERGY SOURCE – LPG GAS/PROPANE

Cinderella Freedom does not require mains electricity but uses LPG propane gas (and 12 V DC for the electronics) as an energy source instead of electricity for the incineration process. This makes Freedom perfect for off-grid installations.

- Perfect for off-grid areas with limited or no access to electricity
- No water, no sewage
- Made in Norway
- 3-year warranty

SCAN THE QR CODE FOR MORE INFORMATION ABOUT CINDERELLA FREEDOM

TO INSTALL FREEDOM, YOU ALSO NEED AN INSTALLATION KIT. SEE PAGE 21.

TECHNICAL SPECIFICATIONS:

- Height: 600 mm / Seated height: 540 mm
- Width: 390 mm
- Depth: 590 mm
- Weight: 34 kg
- Capacity: 4 visits per hour
- Ventilation duct / pipes: 110 mm external dimensions
- Energy consumption in standby: 0,005 Amp
- Energy consumption during incineration: 1,3 Amp
- Gas consumption: 160-190 gram per incineration
- Max power burner: 2,87 kW
- Power requirement: 12V DC (11-14,4 V), 4 amp

OTHER FEATURES FREEDOM:

- 230 V power supply not required, only 12V DC, gas supply and inlet/outlet air
- A high quality product made in Norway
- Easy to use and childproof
- LCD display with notifications
- No odor, certified and approved in accordance with applicable regulations.
- Complete toilet solution, incinerates all waste
- No water supply required (no indoor or outdoor tank)
- 3-year warranty (**Some restrictions may apply, read more on page 20*)

CINDERELLA URINAL

DOES NOT REQUIRE WATER OR ENERGY

Cinderella Urinal is a toilet intended solely for urination. The urinal is a unisex model that can be used by both adults and children. It is equipped with an odor trap in the form of a membrane that prevents odors in the toilet room. A perfect combination solution that reduces the load on your incineration toilet.

Ideal for cottages, leisure homes and Tiny Homes in combination with any one of our incineration toilets

Waterless – the urine is led to an external collection tank or ejector tank.

Unisex model.

SCAN THE QR CODE FOR MORE
INFORMATION ABOUT CINDERELLA URINAL

TECHNICAL SPECIFICATIONS:

- Seated height: 420 mm
- Height: 460 mm
- Width: 340 mm
- Depth: 500 mm
- Weight: 6 kg
- Drain pipe: 50 mm
- Max weight tolerance: 150 kg

Cinderella Urinal is equipped with a membrane/odor trap that prevents unpleasant odors in the toilet room.

OTHER FEATURES URINAL:

- CE-marked, waterless urinal
- Unisex model, for both men and women
- Hygienic
- Frost proof
- Odour barrier to prevent odours
- Easy to install
- A high quality product made in Norway
- 3-year warranty

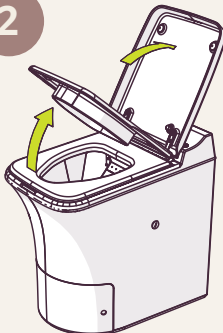

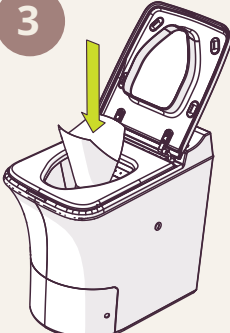

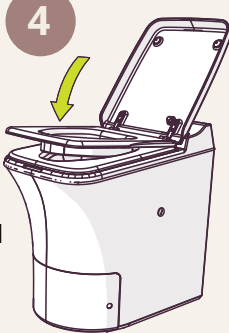

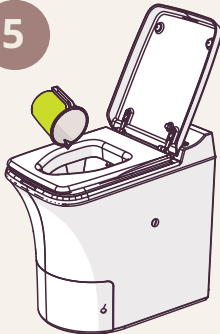

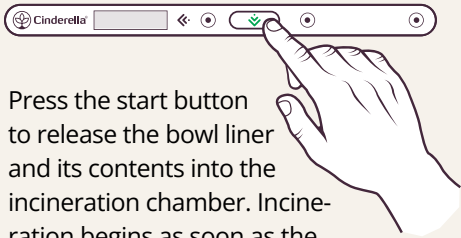

The urinal is cleaned like a regular toilet, we recommend using water and a mild cleaning detergent if necessary.

A CINDERELLA INCINERATION TOILET IS EASY TO USE

Using a Cinderella is much like using a regular toilet.
The only difference is that you insert a bowl liner for
each use and empty the ash container regularly.

- 1 Check that the green light on the control panel is lit. It indicates that the toilet has power and is ready for use.

- 2  Lift the toilet lid and seat. A red light starts flashing. The fan starts.
- 3  Place a Cinderella bowl liner inside the toilet. Use a new bowl liner for each visit.
- 4  Lower the toilet seat. The toilet is now ready for use.
- 5  Use the toilet as usual. If only a small amount of waste is produced, it may be beneficial to pour 1–2 dl of water into the bowl liner to increase the weight.
- 6  Close the toilet lid.
- 7  Press the start button to release the bowl liner and its contents into the incineration chamber. Incineration begins as soon as the hatches close. The toilet is now ready for the next user.

- 8 During incineration, a yellow light remains steadily lit. Incineration is temporarily interrupted if a new visit is made to the toilet. The incineration time may vary depending on the number of uses and the amount of waste.

EASY TO INSTALL

Installing a Cinderella incineration toilet is easy and does not require external tanks or the use of water and sewage connections. The installation kit includes everything you need to install your Cinderella. It is important that the installation is carried out according to our recommendations to ensure reliable operation and a long service life.

SCAN THE QR CODE TO READ MORE ABOUT THE INSTALLATION KIT AND OTHER ACCESSORIES.

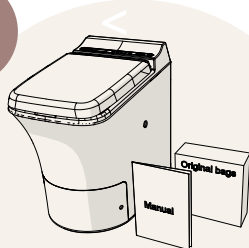

WHAT DO I NEED IN ORDER TO INSTALL CORRECTLY?

The toilet is delivered in a box containing the product manual, a pack of 100 original bowl liners and, for some models, model-specific components. For correct installation, you will also need our universal installation kit. The installation kit consists of two separate boxes (BOX 1 and BOX 2), each containing the parts required for a complete and optimal installation**.

Please note that the gas regulator for Cinderella Freedom is **not** included in the toilet box or the installation kit, and must therefore be purchased separately, for example from our webshop.

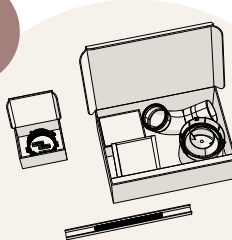

Read more about our universal installation kit under “Accessories for your incineration toilet” on page 20.

INCINERATION TOILET,
LINERS AND MODEL-
SPECIFIC COMPONENTS.

2

INSTALLATION KIT
BOX 1

3

INSTALLATION KIT
BOX 2

The example above shows a Cinderella Comfort and the contents of the installation kit.

****)** An optimal installation has no bends in the exhaust pipe other than those included in the installation kit. If you need a 45° pipe bend, for example to pass an eave (not applicable to Freedom), it can be purchased in our webshop or from our retailers. See the product manual for alternative installation options for your product.

COMPONENTS FOR AN OPTIMAL INSTALLATION

We have upgraded several of the components in our installation kit. Our black pipes are optimized for ventilation, and UV-stabilized to avoid color fading over time. The flue terminal cap is important for optimal incineration and helps to keep the ventilation pipe free of twigs, leaves and other debris. Our flue terminal cap has a streamlined design and is available in black to match our new pipes. The elbow bend with condensation connector replaces our traditional T-bend. The bend is, like the flue pipes, UV-stabilized and will not fade over time. The bend also has the option of connecting to the condensation trap, most appropriate when the flue pipe is mounted inside the room.

Please note that new components are sold loosely as accessories and can easily replace older components on already existing installations.

FLUE TERMINAL CAP
Streamlined design and better airflow in the pipe

UV-STABILIZED PIPES
Black, matte color that will not fade over time. Optimized for ventilation

BEND W / CONDENSATION CONNECTOR
Better airflow, easier installation and cleaning. The option to connect a condensation trap (indoors)

AIR INLET GRATE
For external installation in front of the air inlet pipe or wall vent, depending on the toilet model.

The example shows the installation of a Cinderella Comfort.

SOLUTIONS FOR MOBILE UNITS

CINDERELLA TRAVEL

ADAPTED FOR CARAVANS, MOTORHOMES AND HOUSEBOATS.

Cinderella Travel is designed for mobile living environments such as canal boats, houseboats, caravans, and motorhomes. Cinderella Travel represents a totally new way to handle waste, easily, without the hassle of emptying in designated areas. The toilets are designed and produced in Norway, renowned for their longevity and high quality with excellent capacity and sustainable, ecological design – without polluting outcomes. Cinderella Travel provides a hygienic and easy way to dispose of toilet waste safely.

Cinderella Travel was launched on the market in 2013 as a further product development from the popular incineration toilets provided by Cinderella, which have been available since 1997. Environmentally friendly Travel does not require main electrical power and uses only LPG gas or diesel and 12V DC control power.

Ideal for caravans

Energy source: LPG gas or diesel

RV's and expedition vehicles

Capacity: 4 visits per hour

Canal- and houseboats

CINDERELLA TRAVEL GAS

ENERGY SOURCE – LPG GAS/PROPANE

NEWS

Tilt function
for easier
maintenance

Cinderella Travel Propane uses LPG gas/ propane as an energy source for the incineration process itself and 12 V DC to control the electronics inside the toilet. This makes the toilet ideal for installation in caravans and motorhomes that use propane for other devices.

- Complete waste handling solution, incinerates all waste
- Does not use water
- No need for holding tanks or containers
- No need for frost protection

SCAN THE QR CODE FOR MORE INFORMATION
ABOUT CINDERELLA TRAVEL GAS

TO INSTALL TRAVEL, YOU ALSO NEED AN
INSTALLATION KIT. SEE PAGE 21.

TECHNICAL SPECIFICATIONS GAS:

- Height: 540 mm / Seat height: 490 mm / Width: 390 mm / Depth: 590 mm / Weight: 20 kg
- Capacity: 4 visits per hour
- Standby Power Consumption: 0.005 Amp
- Power consumption (incineration): 1.3 Amp
- Gas consumption: 140-180 g per incineration
- Exhaust fan: 12V DC
- Gas: Propane (30 mbar pressure)
- Electrical power supply: 12V DC / 4 Amp (11-14.4 V)
- Maximum burner effect: 2,7 kW
- 3-year warranty (*Some restrictions may apply, read more on page 20)

PRACTICAL LIFTING MECHANISM:

The Cinderella Travel is equipped with a practical lifting mechanism which lifts the outer shell in a simple motion. The mechanism makes for easy access to the ash tray for emptying.

NEWS 2026

Cinderella Travel comes with a new tilt function that makes maintenance even easier.

CINDERELLA TRAVEL DIESEL

ENERGY SOURCE – DIESEL

NEWS

Tilt function
for easier
maintenance

Cinderella Travel Diesel uses high quality diesel as an energy source for the incineration process itself and 12 V DC to control the electronics in the toilet. This makes the toilet perfect for installations in motor homes and canalboats where diesel can be obtained directly from the fuel tank.

- Complete waste handling solution, incinerates all waste
- Does not use water
- No need for holding tanks or containers
- 3-year warranty (**Some restrictions may apply. Read more on page 20*)

ACCESSORIES FOR YOUR INCINERATION TOILET

MAINTENANCE KIT

For easy cleaning and maintenance of your Cinderella incineration toilet.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

ROOF FEED THROUGH FLANGE

For pipe installations that goes through a roof or roof protrusion.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

ASH CONTAINER INSERT CARAVAN

Fits Cinderella Travel. Round bottom.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA WALL VENT BOXED

Air intake valve for Cinderella Classic and Freedom.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

FLUE TERMINAL CAP FLOW

New, streamlined design
Less resistance – increased air flow.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CONDENSATION TRAP

Condensation trap for flue pipes. For flue pipes mounted indoors.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

AIR INLET GRATE BLACK

For mounting on wall in front of the inlet air pipe for Comfort and Premium.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

ASH CONTAINER INSERT FLAT

Fits models produced after 2006. Flat bottom.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

FLUE PIPE ELBOW 45° PP BLACK

Elbow 45° for ventilation pipes. UV-stabilized color. Black, matt finish. 110 mm.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

ELBOW 87° 110 MM PP BLACK

Elbow 87° with condensation connector. Black, matt finish. 110 mm.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA LINER HOLDER – STEEL

Holds a carton of 500 original bowl liners. White lacquered steel.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA LINER HOLDER – PLASTIC

Practical and space-saving liner holder. Holds approx. 50 original bowl liners.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

***Warranty** Please note that the 3-year warranty only applies to private installations for leisure use. For commercial and industrial use, a limited warranty period of 1 year applies. Read more at cinderellaeco.com

**Gas
regulator not
included.**

VENTILATION INSTALLATION KIT FREEDOM

Contains 5 x tube with sleeve, 5 x connector ring, 3 x wall mount, 4 x pipe clamp, 1 universal ball valve siphon, 1 venting male / female elbow with condensation drain.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA INSTALLATION KIT TRAVEL

Installation kit containing exhaust pipe, Insulation sleeve for exhaust pipe, hose clamps, air intake pipes and connection for exhaust.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA TRAVEL BUILD IN BOX

Simplifies the installation of Cinderella Travel. Prefabricated installation box for exhaust pipes and the toilet's installation parts. Contains 1 x installation box, 2 x pipe cover, 12 x screw plugs, 1 x bracket, 1 x installation manual.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA UNIVERSAL INSTALLATION KIT

Box 1 and Box 2: Everything you need for an optimal installation: 1 x Air inlet grate 1 x Flue Terminal Cap, 1 x Elbow 87°, 3 x Pipe clamps/fasteners, 6 x Pipes 1m w/sleeve.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA BOWL LINER

500 ea. Specially developed for the static Cinderella Incineration toilets.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

CINDERELLA FOOT REST

A specially designed foot rest should it be needed. Safe grip surface.

Fits the following models:

- Premium
- Freedom
- Comfort
- Travel
- Classic

SUSTAINABLE WATER FREE SANITATION – FOR OVER 25 YEARS

Getty Images

 Made in Norway

Cinderella is part of the well respected Sjøvik Group, which has been based in Sjøvika, Midsund, since 1903.

In 2022, we opened our new cutting-edge factory in Lyngen, located in northern Norway, where all our toilet models are produced. With modern technology and dedicated employees, we are setting a new standard for premium toilet systems.

Our goal is not only to provide solutions that meet customer needs but also to contribute to addressing global challenges related to water and sanitation.

Cinderella is the natural first choice for those who value quality and functionality
– when nature calls.

OUR COMMITMENT TO OUR ENVIRONMENT AND OUR SOCIETY

At Cinderella we design ecological solutions for the total management of toilet waste. In a world where water shortages and energy resources characterize areas with strong urbanization and population density, health challenges arise through failing or lacking sanitation. This is where Cinderella's incineration toilets can be an environmentally friendly alternative.

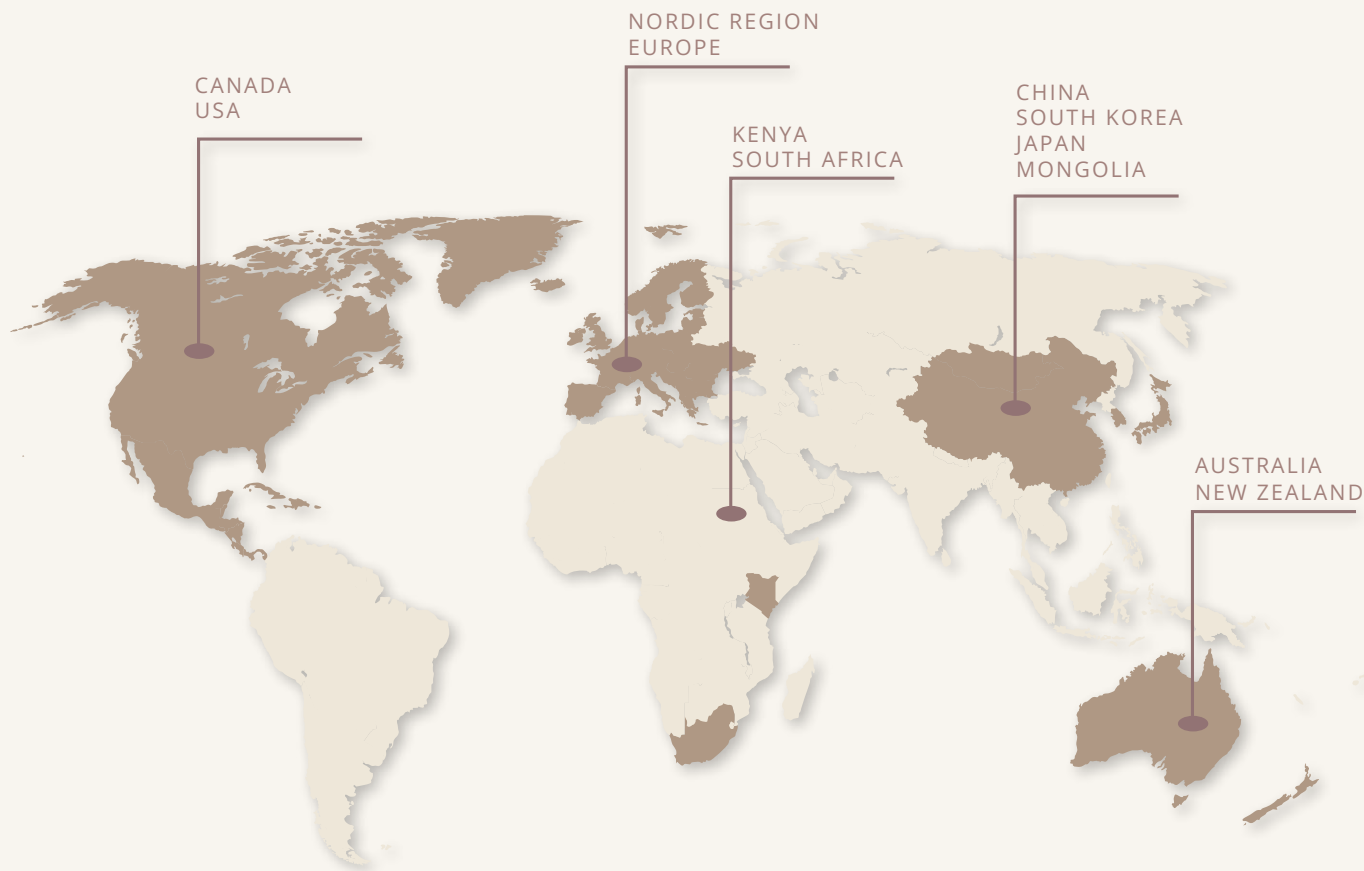

The UN's Sustainable Development Goals provide guidelines to important dimensions such as health, access to water and sanitation, innovation and responsible consumption, education and job creation as well as the preservation of life on earth and in water. Through our corporate social responsibility for the non-profit organization North South Partnership Aid, we are committed to contributing to the future of orphaned and vulnerable children in Kenya and

Ethiopia. We donate our water-free incineration toilets to children's villages that need safe sanitation, contributing to ensuring that precious water resources are used exclusively for hygiene, drinking and agriculture, not for flushing.

At Cinderella, we develop environmentally friendly waste solutions that do not require access to water and can be adapted to different needs. Our incineration technology uses energy sources such as LPG gas or electricity and where electricity can be harnessed from wind power or solar. The result of the process is only a minimal amount of bacteria-free ash that can be safely disposed of in ordinary household waste bins. In this way, we help to limit our ecological footprint, without the consumption of precious resources and without infectious or polluting emissions.
